## SERVICES AND FEES

This schedule applies to accounts opened in the state of Arizona regardless of where you now live. For accounts opened online, the account is considered opened in the state you indicated when providing your address in account opening.

This schedule shows the fees TCF National Bank ("we," "us," "our," and "TCF") charges for banking services, and is part of your account contract with TCF that governs the use of your account. You may also be required to pay fees for services you obtain from third parties not affiliated with TCF. TCF may receive a portion of these third-party fees (markup). TCF may change, increase, or add to the fees shown in this schedule and will notify you as required in your account contract. Some fees are waived, depending on account type.

### Overdraft and Returned Item NSF

<b>Overdraft Fee</b>	\$37 for each item TCF pays
<b>Returned Item NSF Fee</b>	\$37 each time TCF does not pay an item

No overdraft fee for items TCF pays in a processing day if your account is overdrawn by \$5 or less at the end of that day.

No overdraft fee for items TCF pays that are under \$1.

We do not charge a fee for declining ATM or debit card authorizations.

There is a combined limit of 5 overdraft and returned item NSF fees per day.

<b>Overdraft Protection Fee</b>	\$10 for each transfer or advance
---------------------------------	-----------------------------------

We charge this fee each day we transfer funds from a linked savings account or advance funds from an overdraft protection line of credit account to cover an overdraft. We also charge interest on the overdraft protection line of credit.

### Online Banking

<b>Online Banking</b>	\$2.95 per month
Fee is waived if you enroll in online statements or in Bill Payment service. <i>(Includes mobile and text banking)</i>	
<b>Scanned Bill</b>	\$0.60 for each paper bill scanned into bill pay
<b>Bill Payment</b>	\$5.95 per month

\$0.40 per each bill payment item over 25 items per month. Bill payment monthly fee is waived if you enroll in online statements.

## ATM, Debit and Charge Card

<b>Check Cashing</b>	Ask us
----------------------	--------

From time to time, TCF may offer a check cashing service separate from your checking or savings account for approved checks. When you cash a check using this service, you get immediate access to the funds without reducing the available balance in your account to cover the check or overdrawing your account. TCF charges a fee for this service. If you need to cash a check and get immediate access to the funds, you should see if you can cash a check against your checking or savings account without paying a fee before using this service. This fee also applies to non-TCF account holders who cash a check you write to them at TCF. See a TCF representative for more information, including the current check cashing fees.

<b>Check Orders</b>	Ask us
---------------------	--------

You pay for checks. Prices vary with quantity and style. You are not required to order checks.

## ADDITIONAL INFORMATION

### Definitions

Capitalized terms in this brochure have the meaning stated in TCF's Terms and Conditions for Checking and Savings Accounts, which is part of your account contract with TCF.

### Rate and Fee Information

**Minimum Deposit Required to Open Account.** The minimum deposit required to open an account is shown in this booklet or in a separate disclosure that we give you, and this varies by account type.

**Interest Rate and Annual Percentage Yield Information.** If your Account pays interest, the current interest rate and annual percentage yield are shown in TCF's *Current Rates and Yields* schedule. Your interest rate and annual percentage yield may change. Any fees would reduce earnings.

**Determination of Rate.** If your Account pays interest, we may change the interest rate on your Account at our discretion. We may do so without giving you advance notice of the change.

**Frequency of Rate Changes.** If your Account pays interest, we may change the interest rate on your Account at any time.

**Limitations on Rate Changes.** If your Account pays interest, there is no limitation on the amount by which the interest rate on your Account may change.

**Frequency of Compounding and Crediting of Interest.** If your Account pays interest, the frequency of compounding and crediting of interest is shown in this booklet or in a separate disclosure that we give you. These vary by account type. For accounts that compound monthly, we credit interest on the last day of the statement period. For accounts that compound quarterly, we credit interest on the last day of the calendar quarter. For accounts that compound annually, we credit and compound interest on the last day of the calendar year (December 31st).

**Effect of Closing an Account.** If your Account pays interest, you will not forfeit interest if your Account is closed before we credit accrued interest. No interest accrues for the day on which your Account is closed.

**Account Balance.** For purposes of this *Small Business Account Services and Prices Schedule*, to determine the balance in your Account or amount on deposit for any day, we use your Account balance at the end of the Business Day after all Items we receive for processing before the applicable cutoff times have been posted to your Account (including deposits and withdrawals). If a day is not a Business Day, we use your Account balance as of the last day that was a Business Day. Transactions you make, including deposits, are not taken into consideration until we post them to your Account.

A deposit of a noncash item, such as a check, is "collected" and therefore included in your "collected" account balance when we receive credit for the deposit and the funds are fully available to TCF. We rely on the availability schedule of our Federal Reserve Bank or correspondent bank, or the availability we receive from

the paying bank or subsequent collecting bank, as applicable, to determine when credit is received. This period is generally up to two Business Days after the Day of Deposit.

When the terms “Average Account Balance” or “Average Daily Balance” are used, we determine this by adding together your Account balance for each day in the statement period (as described above) and then divide the total by the number of days in the statement period.

**Balance Computation Method.** If your Account pays interest, we use the daily balance method to calculate the interest on your Account. This method applies a daily periodic rate to the collected balance in your Account each day. The daily periodic rate is 1/365 of the disclosed annual interest rate (1/366 of the disclosed annual interest rate in a leap year). See the section called “Account Balance” to determine how your collected balance is determined.

**When Interest Begins to Accrue on Noncash Deposits.**

If your Account pays interest, interest begins to accrue on deposits of noncash items (for example, checks) when the item is “collected.”

**Minimum Balance Required to Obtain Disclosed Annual Percentage Yield.** If your Account pays interest, the “Minimum Balance Required to Obtain Disclosed Annual Percentage Yield” is the minimum collected balance you need to maintain on deposit in your Account each day to earn the disclosed interest rate and annual percentage yield. This varies by product. Each tier shows the minimum collected balance required to obtain the corresponding interest rate and annual percentage yield (referred to as the Tier 1 rate, Tier 2 rate, etc.). Once you meet the minimum collected balance required to earn the disclosed interest rate and annual percentage yield, we will pay the disclosed interest rate on the entire collected balance in your Account. Interest rates and annual percentage yields offered within two or more consecutive tiers may be the same. When this is the case, the TCF *Current Rates and Yields* schedule may show these multiple tiers as a single tier. See the section called “Account Balance” to determine how your collected balance is determined.

**Monthly Maintenance Fee.** If your Account has a monthly maintenance fee, we assess the fee monthly and charge it to your Account at the end of the statement period. We will not assess a monthly maintenance fee if your Account meets certain conditions (“waivers”), which are shown in this booklet or in a separate disclosure that TCF gives you.

**Minimum Account Balance.** If your Account has a monthly maintenance fee that can be waived if you maintain a Minimum Account Balance, the term, “Minimum Account Balance” means, except as otherwise noted below, the minimum amount you need to maintain on deposit in your Account each day to avoid the maintenance fee. This varies by product. If your Account qualifies for this waiver, we will not assess a maintenance fee on your Account in any statement period for which you maintain the required minimum balance in the Account.

**Minimum Average Account Balance:** If your Account has a monthly maintenance fee that can be waived if you maintain a Minimum Average Account Balance, the term “Minimum Average Account Balance” means the minimum average daily

amount you need to maintain on deposit in your Account to avoid the maintenance fee. This varies by product. If your Account qualifies for this waiver, no maintenance fee will be assessed on your Account in any statement period if you maintain the required minimum average daily balance in the Account during the statement period. To determine your Account balance for any day, we use your Account balance at the end of the Business Day after all Items received by TCF for processing before the applicable cutoff times have been posted to your Account. If a day is not a Business Day, we use your Account balance as of the last day that was a Business Day. Transactions you make, including deposits, are not taken into consideration until they are posted to your Account. To determine the average daily balance of your Account, we add together your Account balance for each day in the statement period and then divide the total by the number of days in the statement period.

**Qualifying Withdrawals.** If your Account has a monthly maintenance fee that can be waived with Qualifying Withdrawals, the term “Qualifying Withdrawals” means withdrawals made during the statement period consisting of: (1) debit card purchases, not including ATM withdrawals or gift card purchases; (2) withdrawals using TCF’s online bill payment service; (3) ACH (automated) withdrawals; and (4) checks you write against your Account that TCF pays. If your Account qualifies for this waiver, we will not assess a maintenance fee on your Account in a statement period for which you make the minimum number of Qualifying Withdrawals.

## Transaction Limitations

By federal regulation, you may not make more than six transfers or withdrawals (or a combination of transfers or withdrawals) from a savings or money market account during a month or monthly statement period: (1) to another Account you have with TCF or to a third party by pre-authorized or automatic transfer; (2) by telephone, fax, or online banking; (3) by check or draft (if you can write checks or drafts against your Account); (4) by debit card (if we have issued a Card for your Account); or (5) by similar order by you and payable to third parties. See the section called “Limits on Withdrawals and Transfer Requests” in the *Terms and Conditions for Checking and Savings Accounts* for additional information on these limits.

None of the transactions described above can be performed on passbook savings accounts or certificates of deposit.

TCF does not limit the number of transfers or withdrawals from your Account: (1) to other TCF accounts you own (if not by pre-authorized or automatic transfer); (2) for purposes of repaying loans you have with TCF and related expenses; (3) if made by mail, messenger, at an ATM, or in person; or (4) if made by telephone (by check TCF sends you).

Additional transaction limits are stated in your Account Contract.
